PROFILE

Hello, I'm Abhinandan kumar gupta. I am **Frontend Developer.** As a developer, I have in-depth knowledge of **React JS** development, **HTML5, CSS3** , **BootStrap** and **Redux.**

PROJECTS

Personal Portfolio

- It is my personal portfolio which is created using **React js.**

E-commerce app using React js

- Developed a robust and user-friendly E-commerce application utilized **React's component-based** architecture and **state management** libraries leveraging modern **UI/UX** principles.

Live Weather app

- It is my weather website.It tells us live-temperature of any city in the world. It is basically **Reactjs Application.**And I use an   **API** for live-temperature.

EXTRA ACTIVITES

Participate in **Deepotsav Ayodhya** as a Volunteer, in which my University made world record every year.

Participate in cultural Programs in my college.
